

Helping to minimize reliance on carbon-based products, services and practices, increasing action steps to adapt to climate change, and promoting environmental sustainability.

2017 Budget: \$400,000+

## 2017 Business Plan Strategies:

-  Civic Leadership and Engagement
-  Healthy Communities
-  Food and Agriculture Economy
-  21st Century Workforce
-  Clean Economy
-  Innovation and Entrepreneurship

### Our partners:

## Delivering Today:

Valley Vision's **Clean Economy** work continues to make the Sacramento region more sustainable, both environmentally and economically.

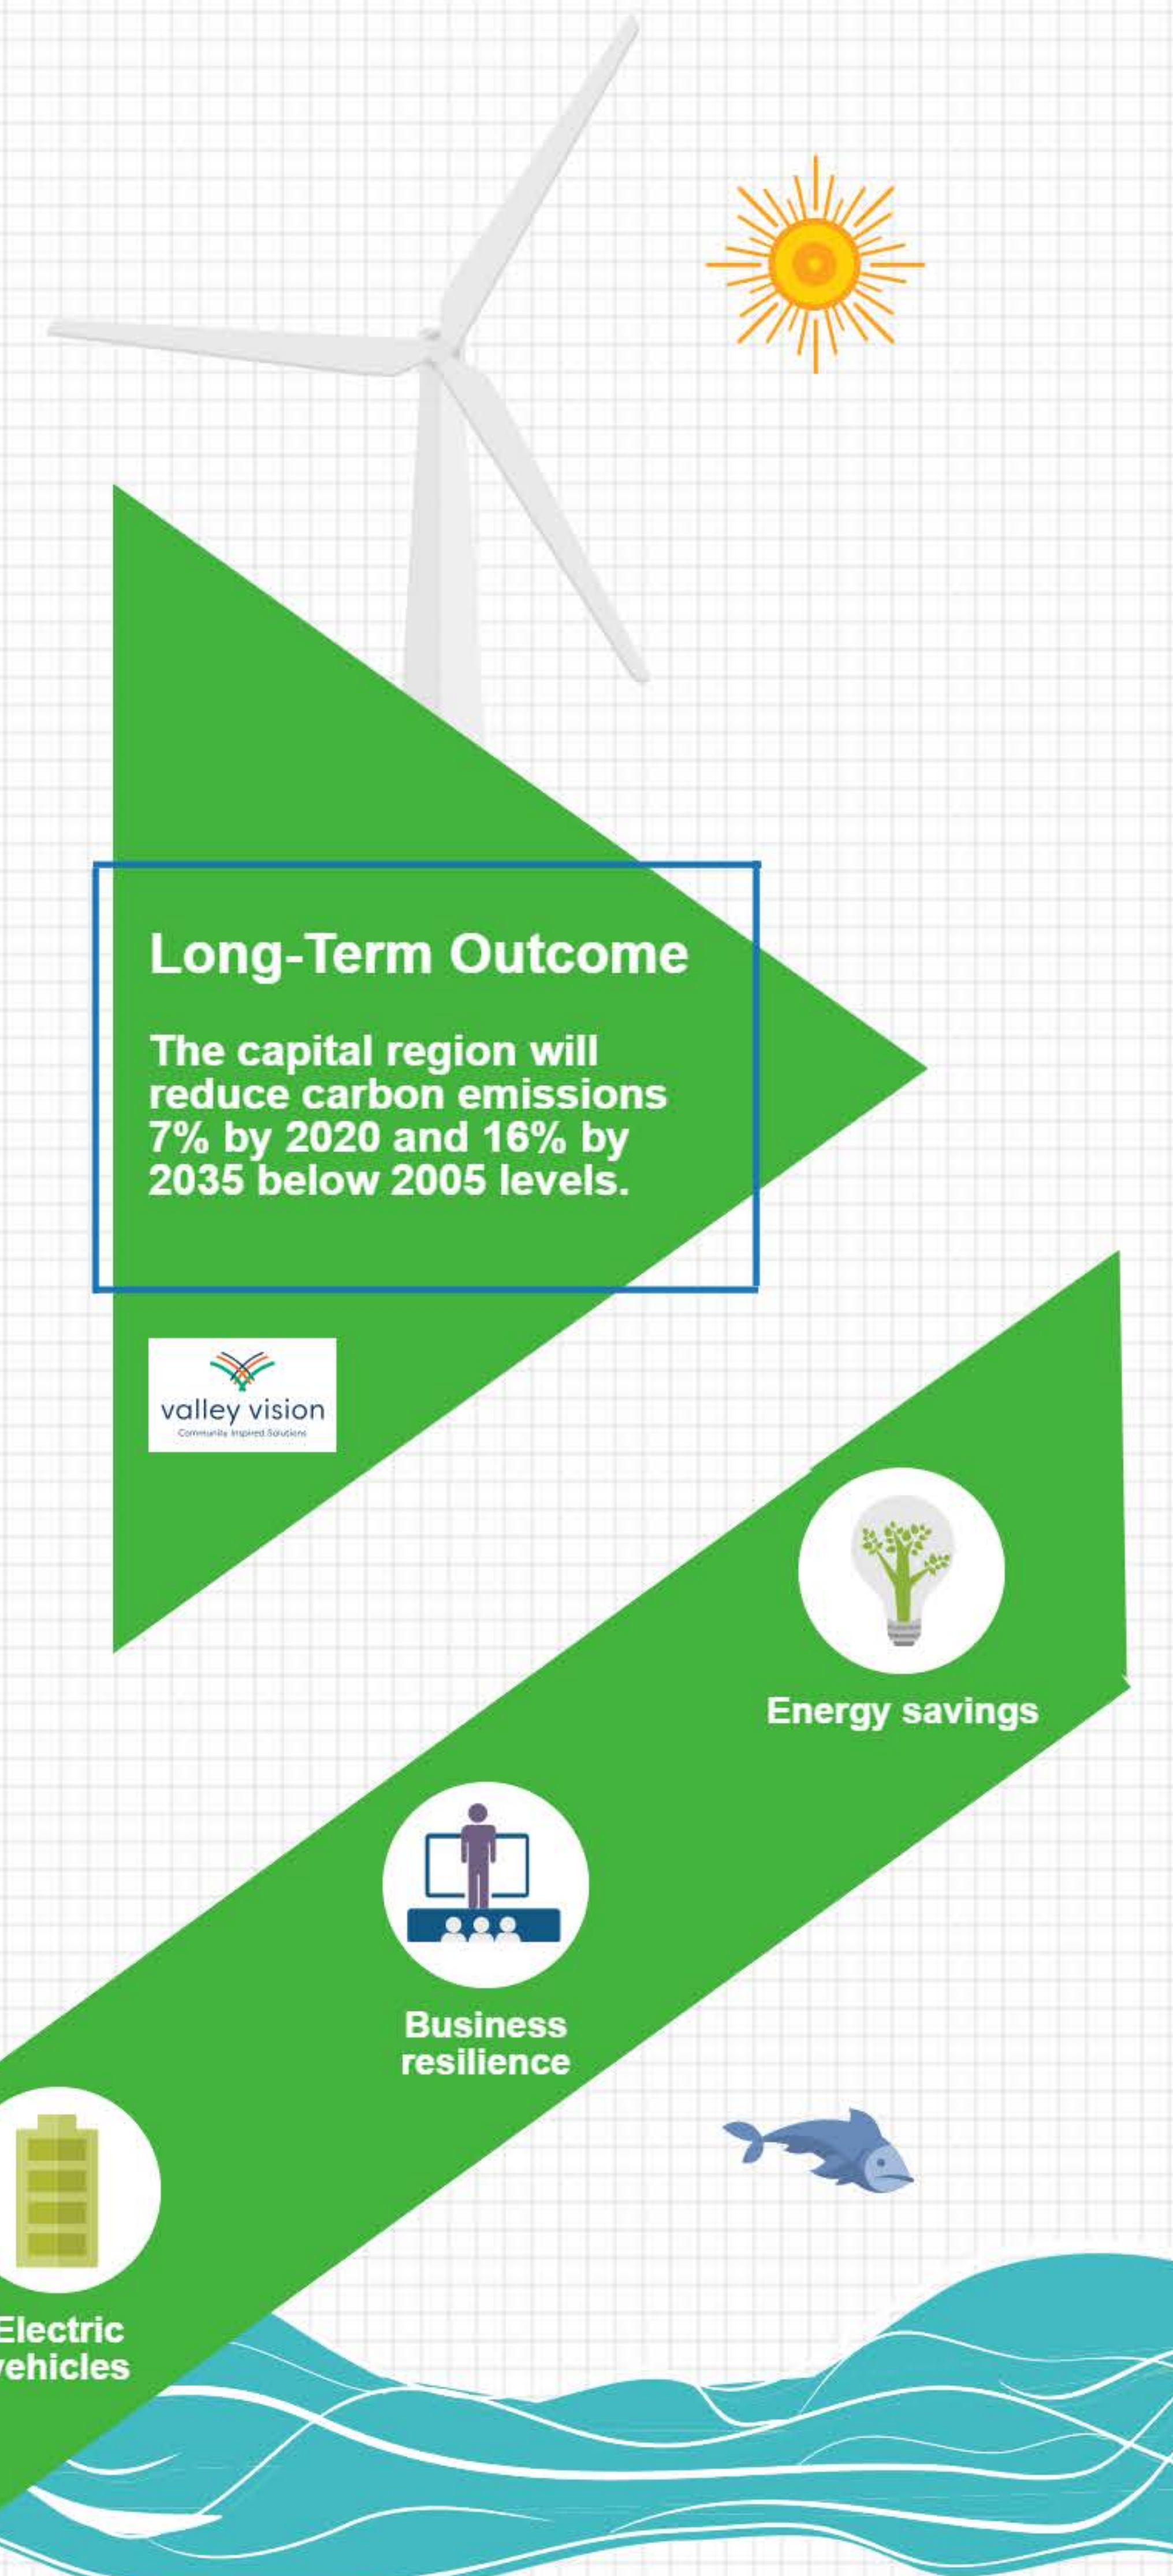

-  **Green Communities**  
Helping to save over **5 million Kilowatt hours** and expanding our work in the **San Joaquin Valley**
-  **Food Waste Recovery**  
**22,000+ lbs** of food redirected to food banks through CropMobster Sacramento.
-  **Cleaner Air Partnership**  
**66% reduction** in smog-forming Nitric Oxide (NOx) emissions since 1990, despite a 50% increase in population.
-  **Clean Transportation**  
Helped the region's EV industry grow by **6,000+ vehicles** a 14-fold increase since 2012.

## Influencing Tomorrow:

### Policy outcomes:

-  Valley Vision plays a **leadership role** by taking part in the region's most prominent state and federal advocacy programs
  - Mayor's DC Trip
  - Capitol-to-Capitol
  - State Legislative Day
-  and by providing thought leadership, coordinating **38 letters of support** and contributing data which is likely to result in **\$44 million** for zero-emission vehicle infrastructure in the Sacramento region.

## A Low Carbon Future:

**Public Private Partnerships Define Our Work in the Clean Economy**
